

LINEAGE2M CLAN HUB - USER MANUAL

Comprehensive Guild Management, Boss Item Vault & Queue Distribution System

This user guide provides a clear, concise breakdown of every page, section, and button within the Lineage2M Clan Hub application.

TABLE OF CONTENTS

1. [User Roles & Permissions](#)
2. [Top Navigation Bar & Header Controls](#)
3. [Dashboard View](#)
4. [Boss Item Vault](#)
5. [Item Queue Management](#)
6. [All Clan Members Directory](#)
7. [Clan & Alliance Management](#)
8. [Special Modals & Configuration Tools](#)

1. USER ROLES & PERMISSIONS

Role	Badge	Permissions & Responsibilities
Owner		Full superadmin access. Controls all game data, promotes/demotes admins, configures classes, and exclusively accesses the Owner Reset Center .
Admin		Can add boss drops, manage queues, distribute items to members, approve new member registrations, and manage the Diamond Vault.
Member		Clan player. Can view items, register claims for eligible items (matching CP requirement), inspect item queues, and view guild roster.

2. TOP NAVIGATION BAR & HEADER CONTROLS

Button / Element	Icon	Function & Description
LINEAGE 2M CLAN HUB		System logo. Click anywhere to return to the Main Dashboard .
Diamond Vault Widget		Displays current central guild diamond reserve. Click to open the Deposit / Withdrawal window.
Wallpaper Settings		Opens the background visual customization modal (upload image, adjust blur/brightness).
Sound Toggle	 / 	Enables or mutes system UI sound effects (clicks, modal pops, distribution fanfares).
Language Switcher (TH / EN)		Instantly switches the interface language between English and Thai .
Login / Logout	 / 	Authenticate into your user account or sign out securely.
Navigation Tabs		Switch across: Dashboard, Item Vault, Item Queue, Members, and Clan Management.

3. DASHBOARD VIEW

The central command screen showing real-time vault balance, transaction timelines, and items currently open for claim.

Elements and Buttons

- **Diamond Vault Card:**
- **"Deposit / Withdraw" Button** (*Admin/Owner*): Deposit loot sale proceeds or withdraw diamonds for guild upkeep with mandatory notes.
- **Transaction Timeline Box:** Shows the 10 most recent deposit and withdrawal activities with timestamp and performer name. Click **"View all"** for the complete audit log.
- **Active Claimable Items Table:**
- **Item Thumbnail:** Click to **Zoom full size**.
- **"Register Claim" Button:** Members with power level meeting or exceeding the minimum CP click to register their intent to claim.
- **"Cancel Claim" Button:** Allows a member to retract their claim registration.
- **"View Claimants" Button:** Displays all registered applicants, sorted by CP and application timestamp.
- **"Distribute Item" Button** (*Admin/Owner*): Opens the recipient distribution modal. Selecting a member awards the item, records distribution history, and triggers an automated Discord announcement.
- **"Clear & Reset" Button** (*Owner Only*): Opens the system reset modal to wipe or archive items for a fresh boss cycle.

4. BOSS ITEM VAULT

(Restricted to Admin and Owner)

Comprehensive repository for logging raid drops, managing preset templates, and scanning hunter rosters with AI OCR.

Sub-tabs

1. **Add New Item:** Input form to record a newly dropped boss item.
2. **Distributed Items Archive:** Searchable archive of all historical distributed items with attached raid proof.

Key Buttons & Actions

- **"Quick Items Menu" Button:** Opens the quick item preset editor to save item icons, names, and rarities for rapid 1-click entry.
- **Quick Presets Shortcut Strip:** Click any preset chip to auto-populate the creation form instantly.
- **Form Inputs:** Item Name, Diamond Price, Minimum CP required to claim, and Rarity tier (Rare / Epic / Legend / Mythic).
- **Item Image Upload:** Select an item graphic from your computer or mobile device.
- **Hunter System & AI OCR Screenshot Scanner:**
- **Hunter Dropdown:** Select hunters from active guild rosters grouped by clan without typing.
- **"Upload Backup Screenshots" (Multiple):** Attach raid party screenshots proving boss participation.
- **"Scan Hunters via OCR" (Gemini AI):** Upload multiple party screenshots; the AI reads player names and matches them against guild databases automatically.
- **"Filter Duplicates" Button:** Cleans duplicate detected names across multiple screenshots in one click.
- **"Create / Add Item" Button:** Validates and saves the item into the active vault.
- **In Distributed Archive:**
- **"View Hunter Proof" Button:** Launches the proof viewer with mouse scroll zoom.
- **"Delete Record" Button:** Permanently deletes the distribution log entry.

5. ITEM QUEUE MANAGEMENT

Transparent, chronological priority waiting list for high-tier guild drops.

Notice: Self-service queue joining is disabled for standard members. Only **Admins and Owners** have privileges to add and rearrange queue members to ensure fair and dispute-free distribution.

Key Buttons & Actions *(Admin/Owner)*

- **" + Register Item into Queue" Button:** Create an item queue category (e.g. Red Ring, Purple Weapon).
- **" + Add Member to Queue" Button:** Select a clan player from the dropdown to place them on the waiting list.
- **"Mark as Received" Button:** Toggles member status to a green checkmark once their item has been awarded in-game.

- **"Mark as Waiting" Button:** Reverts a member's status back to pending queue.
 - **Queue Reordering:**
 - Use the **Up / Down Arrow buttons**
 - Or **Drag & Drop** member cards using the grab handle to change priority rank.
 - **"Remove Member" Button:** Removes a specific player from the item queue.
 - **"Delete Queue Item" Button:** Deletes the entire item queue category.
-

6. ALL CLAN MEMBERS DIRECTORY

Directory of all clan players grouped by guild and sorted by Power Level (CP).

Section 1: Pending Approvals

(Awaiting Admin action after user registration)

- **"Approve Member" Button:** Validates account and grants access to the portal.
- **"Reject Request" Button:** Rejects and clears the registration request.

Section 2: Active Members Roster

- **Search Input:** Filter members in real-time by character name, clan, or class.
 - **"Edit Profile" Button** *(Admin/Owner)*: Modify character name, CP, clan affiliation, class, and password.
 - **"Assign Role" Button** *(Owner Only)*: Promote or demote between Member, Admin, and Owner.
 - **"Delete Member" Button:** Removes member record from the database.
-

7. CLAN & ALLIANCE MANAGEMENT

(Restricted to Admin and Owner)

Organize main clans, sub-guilds, and alliance rosters.

Key Buttons & Actions

- **" + Add New Clan" Button:** Register a new clan tag into the guild network.
 - **Drag-and-Drop Member Transfers:** Click and drag any player card into a target clan container to instantly update their affiliation.
 - **Batch Member Deletion:**
 - Check individual boxes or click **"Select All in Clan"**.
 - Click **"Batch Delete Selected"** to prune multiple inactive accounts at once.
 - **"Delete Clan" Button:** Removes an empty clan container.
-

8. SPECIAL MODALS & CONFIGURATION TOOLS

1. Diamond Vault Modal

- **"Deposit" Tab:** Specify amount and reason (e.g. boss loot market sale).
- **"Withdraw" Tab:** Specify amount and reason (e.g. consumables, clan payout).

- **"Log" Tab:** Review the complete historical audit log of all financial movements.

2. Discord Webhook Settings Modal

- Click the **Bell icon** on the sidebar.
- Enter your guild's Discord Webhook URL.
- **"Test Ping" Button:** Sends a formatted verification card to your Discord channel.
- When enabled, automatic rich embeds are dispatched for: Item additions, loot distributions, and diamond transactions.

3. Class Settings Modal

- Click the **Sword icon** on the sidebar.
- Add or delete character classes to reflect the active game patch (e.g. Orb, Bow, Greatsword, Dual Blades, Rapier).

4. Wallpaper & Theme Settings Modal

- Click the **Sparkles icon** on the top bar or sidebar.
- Upload a custom castle background or choose presets.
- Sliders for: **Brightness**, **Blur radius**, and **Overlay Darkness**.

5. Live Announcement Ticker Bar

- Located at the top of the interface for urgent clan broadcast messages.
- Click the **Pencil icon** to edit message content and toggle visibility.

6. Owner Reset Center

(Owner Privilege Only)

- Safeguarded by mandatory confirmation (must **type "RESET"** to execute).
- Granular reset choices:
 1. Clear all distributed items (preserve active claimable items).
 2. Wipe all vault items for a brand new hunting cycle.
 3. Wipe all item queues.
 4. Clear diamond vault transaction logs.
 5. Restore default sample data for testing.

Document produced for Lineage2M Clan Hub players and administrators.
